## REV. EDWARD HALE, BLIND CHAPLAIN OF U.S. SENATE, IS DEAD

Passed Away at His Home  
in Boston at An Early  
Hour.

### THOUGH VERY ILL, DEATH WAS SUDDEN

WAS UP AFTERNOON PRIOR TO  
HIS DEATH—THE DECEASED  
HAD BEEN CHAPLAIN OF THE  
SENATE SINCE 1893 AND HAD  
REACHED THE AGE OF 87 YEARS  
—FOR YEARS HE HAD BEEN  
PROMINENT AS A WRITER AND  
CHURCH WORKER.

By Associated Press.  
Boston, June 10.—Rev. Edward Everett Hale, the blind chaplain of the United States senate, died at his home in Roxbury today.  
News of the death of Dr. Hale shocked Boston to an unusual degree because comparatively few knew that he was ill. A week ago he was present at a celebration in honor of the nineteenth birthday of Mrs. Julia Ward Howe, his contemporary in many of the reform movements with which both had been identified for more than fifty years. To his family it had been apparent for some time that Dr. Hale's health was failing. A few days ago heart weakness was noticed and his condition became alarming. His great age, 87 years, militated against him. Yesterday, however, he was up and about his apartment. In fact, he had not been confined to his bed at any stage of his illness. He retired at the usual time last night but his physician had noted evidences that led him to warn the immediate members of the family that the end was not far off. As the night passed, Dr. Hale constantly became weaker until the end came, about 3 o'clock this morning.  
Grieved about Dr. Hale's demise when he died were Mrs. Hale, his wife; Philip L. Hale, his son; Ellen, his daughter, and the family physician.  
NATIVE OF BOSTON.  
Dr. Hale was born in this city in April, 1822, and by training, education and tradition, he represented throughout the 87 years of his life the spirit of the founders of the Massachusetts bay colony. He was graduated from Harvard in 1839. He was actively connected with the Boston Advertiser many years ago, and his first charge as a clergyman was a church in Worcester. He was a prolific writer and had for years been allied with the principal philanthropic movements of the city, state and nation.

### CHAPLAIN OF UNITED STATES SENATE SINCE 1893.

By Associated Press.  
Washington, June 10.—Dr. Hale had been chaplain of the United States senate since 1893. His election at that time to fill a vacancy was generally regarded as a high tribute to his accomplishments and intellectual ability.

## Locks Accident Could Never Occur at Panama

By Associated Press.  
Washington, June 10.—Army engineers here state that such an accident as occurred yesterday in the locks will never happen in the Panama canal. A careful study has been made of the locks with a view of preventing all accidents that may put the canal out of commission for any period.  
It is pointed out by Lieutenant Colonel H. F. Hodges, assistant chief engineer of the canal, that instead of one gate at each end of the locks there will be two on the locks of the Panama canal. Should one of the gates be broken the other would perform service.  
Another precaution against such an accident is the protection of the gates by chains, manipulated in such a way that a big ship coming at a fair rate of speed can be stopped within a few feet and in any event the impact against the gates would be materially reduced.  
Instead of vessels being allowed to pass in and out of the locks under their own steam they will be controlled by the lock masters. In this manner it is believed that the greatest danger from accidents will be avoided.
